PROVISION PRICING

Wildframe Education

Commissioner Pricing Schedule • 2026/27

Wildframe pricing is based on an all-inclusive 2-hour 1:1 session model. The session fee covers not only the two hours spent directly with the learner, but the professional time and operating costs required to deliver safe, planned and evidenced alternative provision.

1. 2-Hour Provision Prices

Provision package	2-hour 1:1 session	Indicative equivalent per delivery hour	Core focus
Community Re-engagement	£185	£92.50	Re-engagement, confidence, community skills, functional learning and SEMH support.
Outdoor Education	£195	£97.50	Outdoor/community learning, practical activity, regulation, resilience and embedded curriculum.
Creative / Music / Photography	£195	£97.50	Creative engagement, photography/music/media projects, communication, confidence and portfolio evidence.
Intensive Programme	£210	£105.00	Higher-frequency, targeted intervention with enhanced planning, monitoring, liaison and review.

These are package prices, not simply two hours of tuition. The equivalent hourly figures above are shown only to help commissioners compare costs; Wildframe commissions provision as a complete 2-hour session package.

2. What the Session Price Includes

Included cost	What is covered
2 hours direct delivery	Individual 1:1 education, engagement, SEMH/personal-development and agreed programme activity.
Travel time	Reasonable practitioner travel associated with delivering the agreed session within the normal service area.
Mileage	Routine mileage associated with practitioner travel to/from the agreed delivery location within the included travel zone.
Session planning	Preparation linked to the learner's Individual Provision Plan, commissioned outcomes, EHCP/SEND needs and current progress.

Included cost	What is covered
Session reporting	Attendance, activity, learning/SEMH objectives, engagement, progress, incidents and next steps recorded after delivery.
Activities and standard resources	Normal consumables, learning resources and low-cost materials required for the agreed package.
Risk management	Routine individual, activity/location and dynamic risk assessment required for delivery.
Insurance	Contribution to appropriate business and provision insurance costs.
Safeguarding and compliance	Policies, record keeping, training, secure systems, commissioner requirements and quality assurance.
Business overhead	Administration, software, equipment, communications, accounting, document management and other operating costs.

3. Package Cost Rationale

Package	Why the price differs
Community Re-engagement — £185	Designed as the core Wildframe 1:1 offer. Includes community delivery, functional learning, SEMH/engagement work, planning, routine resources and commissioner evidence.
Outdoor Education — £195	Includes the core service plus additional location/activity planning, dynamic risk management, outdoor equipment/resources and greater variability in delivery environment.
Creative / Music / Photography — £195	Includes the core service plus creative materials/equipment, project preparation, digital/portfolio organisation and evidence of completed work.
Intensive Programme — £210	Includes enhanced planning, closer outcome monitoring, increased professional liaison and more frequent review/reporting associated with a concentrated intervention.

4. Intensive Programme Block Pricing

Intensive programmes are normally commissioned as a defined block rather than as an isolated session. The examples below provide commissioners with a simple way to cost a short intervention.

Example intensive package	Sessions	Direct learner delivery	Package price
2 sessions per week for 6 weeks	12 × 2-hour sessions	24 hours	£2,520
3 sessions per week for 6 weeks	18 × 2-hour sessions	36 hours	£3,780
3 sessions per week for 12 weeks	36 × 2-hour sessions	72 hours	£7,560

Any intensive package remains subject to referral assessment, suitability, agreed hours and Wildframe's operating model. Higher frequency does not automatically mean that Wildframe is assuming responsibility for a learner's full-time education.

5. Example Term Costs

For budgeting purposes, the following examples use a six-week half term and assume every commissioned session is delivered. Actual invoices will follow the commissioning agreement and cancellation terms.

Package	1 session/week (6 sessions)	2 sessions/week (12 sessions)	3 sessions/week (18 sessions)
Community Re-engagement	£1,110	£2,220	£3,330
Outdoor Education	£1,170	£2,340	£3,510
Creative / Music / Photography	£1,170	£2,340	£3,510
Intensive Programme	£1,260	£2,520	£3,780

6. Travel and Mileage

The standard session price includes reasonable travel time and mileage within Wildframe's normal operating area around Taunton and the surrounding Somerset area, subject to the location agreed at referral.

Where a placement requires significant additional travel outside the normal service area, an additional travel charge or revised package price may be agreed in writing before the placement begins. Wildframe will not add unexpected mileage charges after commissioning without prior agreement.

7. Activities and Additional Costs

Standard activities and routine learning resources are included in the session price. This is intended to keep commissioning simple and allow the practitioner to plan appropriate activities without requesting small additional payments.

Normally included	May require prior additional agreement
Routine learning/creative materials	High-cost specialist equipment or materials
Local community activities with little/no entry cost	Paid attractions, specialist venues or significant entry fees
Standard outdoor resources	Specialist adventure activities or external instructors
Routine photography/creative project resources	High-cost printing, specialist production or learner-specific equipment
Normal local practitioner travel	Exceptional travel outside the agreed service area

Any additional cost will be discussed and approved by the commissioner before it is incurred.

8. Assessment, Planning and Reporting

Routine referral review, pre-placement assessment, Individual Provision Plan preparation, session planning, session records and scheduled progress reporting are built into the package price where they form part of a commissioned placement.

Exceptionally complex assessment work, extensive multi-agency meetings, court/tribunal reports, specialist assessments or reporting substantially beyond the agreed commissioner schedule may be separately quoted before the work is undertaken.

9. Cancellations

Cancellations and non-attendance are managed under the Wildframe Education Attendance and Cancellation Process and the individual commissioning agreement. This is important because a commissioned session reserves practitioner time and may involve planning, travel preparation, resources and other costs before direct delivery begins.

The exact notice period and charging treatment for late cancellation/no-show should be stated in the signed commissioning agreement so both parties understand the position before provision starts.

10. Pricing Principles

Principle	Wildframe approach
Simple	One clear 2-hour session price rather than separate routine charges for planning, reports, mileage and resources.
Transparent	Commissioners can see what is included and when an exceptional additional cost might arise.
Outcome-focused	The fee supports the full cycle of baseline, planning, delivery, evidence, review and recommendation.
Sustainable	Pricing reflects the non-contact professional time, compliance and operating costs needed to maintain safe, high-quality 1:1 provision.
Individualised	The package can be adapted to the learner while the commissioned price and any exceptions are agreed in advance.

11. Bespoke and Blended Packages

Packages can be blended where this better meets the learner's needs. For example, a Community Re-engagement package may use photography as the engagement tool, or an Outdoor Education package may move into an intensive transition phase.

Where packages are blended, the price will normally follow the package that best reflects the principal level of preparation, resources and professional input. Any bespoke price will be confirmed before commissioning.

12. Commissioner Quote

Learner / reference	_____
Package	☐ Community Re-engagement ☐ Outdoor Education ☐ Creative/Music/Photography ☐ Intensive
Number of 2-hour sessions per week	_____
Proposed duration	_____
Price per 2-hour session	£_____
Estimated weekly cost	£_____
Estimated total commissioned cost	£_____
Additional agreed costs (if any)	_____
Review date	_____

13. Important Pricing Note

Prices shown are proposed Wildframe Education commissioner rates for the 2026/27 service year and should be reviewed periodically against operating costs, demand, insurance, mileage, staffing and commissioner requirements. All prices should be confirmed in the individual commissioning agreement before delivery begins.

VAT, if applicable to Wildframe Education's circumstances and the particular supply, should be dealt with in accordance with professional accounting/tax advice and clearly shown on quotations and invoices.
